8. The formation of the heavenly bodies according to the received theory which supposes it to have taken place by the concentration and consolidation of cosmic matter.

1850 Nichol *Archit Heav.* Pt III (*title*) Psyche, or Evolution *Ibid* 239 (*heading of page*) Universal Evolution 1851 *Ibid.* (ed. 9) 289 As on Earth, there is [*sic*] also—ruling these high Heavens—vast processes of evolution 1880 Haughton *Phys Geog* I 2 The idea of the evolution of planets is due to the great astronomer Laplace.

9. In recent philosophical speculation used in a more comprehensive sense, of which the senses 6 a, 6 c, 7, 8 are regarded as special applications.

According to Herbert Spencer, whose views have greatly influenced not only the technical but also the popular use of the word, all the changes in the universe, whether material or psychical, are phenomena either of Evolution or of the reverse process of Dissolution; his definition of the former is quoted below

1862 H Spencer *First Princ* II XVII. § 145 (1875) 396 The formula finally stands thus —Evolution is an integration of matter and concomitant dissipation of motion; during which the matter passes from an indefinite, incoherent homogeneity to a definite, coherent heterogeneity; and during which the retained motion undergoes a parallel transformation 1878 J Sully in *Encycl Brit* VIII 765 Mental evolution is a progressive composition of units of feeling in more and more complex forms *Ibid*, Mr Spencer's elaboration of the subject of social evolution has not been carried far enough 1883 A Barratt *Phys Metem. princ* 32 The laws of Evolution apply to both universes a universe of material forces, and a universe of conscious states 1885 Clodd *Myths & Dr* II 144 Evolution is advance from the simple to the complex

II. A tactical movement (and derived senses).

10 *Mil.* and *Naut.* The unfolding or opening out of a body of troops or squadron of ships; hence *gen.* any movement or change of position, such as counter-marching, wheeling, etc, required in the due disposition of a force, whether for review, or for active operations. Also *fig*

Ex- *prefix*^{1}, of Latin origin.

I repr L *ex-*, the prep *ex* (see prec) in combination

1. In Latin the form *ex-* appears before vowels and *h*; also before *c*, *p* (exc in *ēpotāre*, *ēpōtus*), *q*, *s*, *t*; before *f* it becomes *ef-* (in inscriptions *ec-*, cf. Gr. ἐκ); before other consonants (exc in *exlex*) it becomes *ē* All these various forms are represented in many Eng derivatives; e.g *ebullient, effervesce, extend* An *s* following the prefix was in mediæval spelling commonly omitted, and this practice has been adopted in English orthography, as in *exert, extinct*; in some scientific terms, however, the *s* has been retained in order to exhibit the composition more clearly, as in *exsert* to protrude (etymologically = *exert*), *exsanguineous, exsiccate* The euphonic rules affecting the prefix in class. Lat did not prevail in vulgar Lat., the universal form being *ex-*, represented in Romanic by *es-* (see Es-) In OF. and in ME., words with the prefix *es-* were occasionally written with *ex-*, after the analogy of words adopted from Latin, a few of these refashioned forms remain in mod. Eng, as *exchange, expound.*

When it has primary or secondary stress, the prefix is pronounced (eks); in unstressed position this remains before a (written) cons, though in southern usage (eks) is commonly substituted; before a stressed vowel the pronunciation is usually (egz), becoming (egz) in southern speech; this rule, however, has many exceptions, chiefly in rare words and in words affected by the analogy of cognates differently accented

2 The Lat compounds of *ex-* chiefly belong to the following classes, all which are represented by English derivatives. 1 Verbs formed from other verbs; in some of these *ex-* has its primary force of 'out', 'forth', as in *exclūdĕre, exīre* (whence Eng. *exclude, exit*); in some it means 'upward', as in *extollĕre* (whence Eng *extol*); in others it has the sense 'thoroughly', as in *excruciāre* (whence Eng *excruciate*) 2 Verbs formed from adjs., with general sense 'to bring into a certain state', as *exacerbāre, exasperāre* (whence Eng. *exacerbate, exasperate*). 3. Verbs formed from sbs; some of these are really formed on phrases in which *ex* governs the sb, and have the senses 'to remove, expel, or relieve from (that which is denoted by the sb)', as *excūsāre, expatriāre, exonerāre* (whence Eng. *excuse, expatriate, exonerate*); others have the sense 'to deprive of (what is denoted by the sb.)', as *excoriāre, excortcāre* (whence Eng *excoriate, excortcate*) 4. Adjs formed from sbs, with the general sense 'deprived of something', as *exsanguis* bloodless (whence Eng *exsanguineous*), in imitation of these, many terms of mod science have been formed in which *ex-* has the non-Latin sense 'destitute of', as *exalbuminous, exstipulate*; the form *e-* (see E- *pref.*^{3}) has however more frequently been employed, even where Lat. euphony would require *ex-*, as in *ecaudate.*

II *Ex-* (with hyphen) prefixed to Eng. words.

3 Prefixed to titles of office or dignity, to form designations for persons who have formerly held the position in question In more restricted sense these compounds denote the immediate predecessor (when still living) of the present holder of the position. After the analogy of these words, *ex-* is prefixed indiscriminately, with the sense expressed by 'former', 'sometime', 'quondam', to sbs designating persons with respect to their calling, station, character, or the like.

[On the analogy of forms of expression like *ex exsule consul*, '(that has become) a consul from an exile', the phrases *ex consule, ex magistro equitum*, etc were in the Latin of the empire added as titles to the names of men who had filled the offices of consul, master of the horse, etc At a later period these phrases gave rise to the compounds *ex-consul, exmagister*, in the same manner as the compounds *procosul, proprætor* had been developed from the older *pro consule, pro prætore.* In med Lat this usage was greatly extended, such forms as *ex-Augustus* ('ex-emperor') being of frequent occurrence Some words of this formation (e g *ex-professor*) passed in adapted forms into It and Fr, and on the analogy of these *ex-* was prefixed to Romanic words. The Eng. use, imitated from Fr., seems to have first become common towards the end of the 18th c]

b When the designation to which *ex-* is prefixed is a phrase, the hyphened prefix has the appearance of being attached simply to the first word. Hence *ex-* occas occurs in actual combination with an adj, with sense 'formerly'.

1826 Bentham in *Westm Rev* VI 457 Ex-learned as I am, and, therefore, if ever, no longer learned—in the law in general, never learned at all 1834 T Medwin *Angler in Wales* II 184, I have heard him more than once tell of his rencontre with an ex-flogging Secretary at War 1859 Lang *Wand. Ex- *prefix*^{2}, of Greek origin The Gr. ἐξ out of, etymologically = L *ex-* (see prec) occurs only before vowels, as in the words adopted into Eng in the forms *exanthema, exarch, exegesis, exodus, exorcize*, etc. Before consonants it is replaced by the related and synonymous form ἐκ-, which becomes *ec-* in Latin, and hence in the Eng derivatives, as *ecbasis, eccentric, eclipse, ecstasy*, etc

Excelsior (ekse lsio1). [L., compar. deg. of *excelsus* high: see EXCELSE.]

‖ 1 a The Latin motto ('higher') on the seal of the State of New York (adopted by the senate of that state 16 Mar 1778), the accompanying device being a rising sun Hence *attrib* in *The Excelsior State*, New York b Used by Longfellow (quasi-*int.* as an expression of incessant aspiration after higher attainment) as the refrain of a popular poem; hence employed with similar sense by many later writers

The adverbial meaning (='upwards') commonly given to the motto cannot be justified by L grammar According to S. Longfellow *Life H W Longfellow* I 384, the poet was at first unaware of the solecism in the motto as thus interpreted, and when it was pointed out to him suggested that the word might be taken to stand for *Scopus meus excelsior est*, 'My goal is higher.' It is not clear whether the original use on the seal is a blunder, or whether it was meant as an abbreviation for some grammatically admissible phrase

4 'That species of mercantile transactions by which the debts of individuals residing at a distance from their creditors are cancelled without the transmission of money' (McCulloch), by the use of 'bills of exchange'.

The simplest case of such a transaction is when two merchants in one place are respectively debtor and creditor for equal amounts to two merchants in a distant place The two debts may be settled by the two creditors *exchanging* their claims; the process being that one of the creditors draws a 'bill of exchange' on his distant debtor, and sells it to his neighbour for its value in present money, the latter sends it as payment of his debt to his creditor, who thus obtains a claim upon a neighbour in exchange for his claim on a person at a distance In practice the matter is much more complicated, and the term *Bill of Exchange* has acquired an extended signification from which the etymological notion has almost disappeared (see BILL *sb*.[3] 9) By writers on the theory of finance *exchange* is used for the whole system of transactions effected by 'bills of exchange', and is formally divided into *Inland* and *Foreign Exchange*. But in practice (exc. in the term *bill of exchange* itself) the word now almost exclusively means foreign exchange, and in this use has a mixed notion of sense 3, the price at which a bill drawn on a foreign country for a given amount may be bought being subject to variations, depending (1) on the varying relation in intrinsic value between the coins of the two countries, (2) on the varying demand for bills, and (3) on the length of time for which the bill has to run

Par of exchange: the recognized standard value of the coinage of one country in terms of the coinage of another; *e g* £1 sterling at par = 25 22½ francs French money. *Rate* or *Course of exchange* (also simply *exchange*): (*a*) the price at which bills drawn in the currency of a foreign country may be purchased; (*b*) sometimes, the percentage by which this differs from par; *e.g.* 'the (rate of) exchange has risen from 9½ to 10 p. c.' *Arbitration of exchange*: see ARBITRATION.

Economic writers distinguish between the *real* par of exchange, which is the relation in intrinsic value existing between the coins of two nations, and the *nominal* or *conventional* par, which may for convenience be maintained at a fixed level When the price that must be paid for a foreign bill exceeds par, *the exchange* is said to be *against*, or *unfavourable to*, the country in which the bill is drawn; when the price is below par, *the exchange* is *in favour of* that country

II The King's Exchequer

2 Under the Norman and Angevin kings of England An office or department of state managed by the Treasurer, the Justiciary and the other judges of the King's Court, and certain Barons appointed by the King Its functions combined the collection and administration of the royal revenues with the judicial determination of all causes relating to revenue In the subsequent development of this institution, it was gradually divided into two distinct branches, the one being charged with judicial, the other with administrative functions: see 3, 4.

The name originally referred to the table covered with a cloth divided into squares, on which the accounts of the revenue were kept by means of counters It is disputed whether the application of the word to the treasury and the tribunal connected with it originated in Normandy, or whether it was imported into Normandy from England After Normandy became part of France, the supreme court of law in that province continued to bear the name of *eschequier* until the reign of Francis I, when this name was superseded by that of *parlement*

3 (More fully *Court of Exchequer*, *Exchequer of Pleas*) A court of law, historically representing the Anglo-Norman exchequer in its judicial capacity By the Judicature Act of 1873 it was converted into 'The Exchequer Division' of the High Court of Justice, and by Order in Council in 1881 this was merged in the Queen's Bench Division

The jurisdiction of the court was theoretically confined to matters of revenue, but in practice was gradually extended to all kinds of cases (except 'real actions') by means of the legal fiction that the wrong suffered by the plaintiff had rendered him unable to pay his debts to the king In addition to its jurisdiction at common law, the court had a jurisdiction in equity, abolished in 1841 In its latest form it consisted of the Chief Baron and five judges, called the Barons of the Exchequer, the Chancellor of the Exchequer was in theory a member of it, and was entitled to a voice in its decisions when it sat in equity

In early use not distinguished from Treasury; but the department of state called the Treasury has not since the 15th century exercised directly the function etymologically indicated by its name The office charged with the custody of the revenues was in theory a branch of the Court of Exchequer (see 3), and was sometimes called *the Lower Exchequer*, *the Exchequer of Receipt*, or *Receipt of Exchequer*, to distinguish it from the judicial branch (*Exchequer of Pleas*) By the Exchequer and Audit Act 1866, the offices of Comptroller of the Exchequer and Auditor General, and the departments over which they presided, were united

Exhaust (egzō·st), *sb* [f Exhaust *v*] The process or means of exhausting.

1. a. *Steam-engine* The exit of steam from the cylinder after having done its work in propelling the piston, the passage through which this takes place; = Eduction 5 (Also in similar sense with reference to water-power and gas engines)

Etymologically, this is appropriate only to the case of a low-pressure engine, in which the steam is literally 'exhausted' from the cylinder by opening communication with the condenser; but when high-pressure engines were introduced, the word continued to be used as a synonym of Eduction, which it has almost superseded.

1848 *Pract Mech Jrnl* I. 44, I have before seen double valves with the duplex steam passages, but in all of them the exhaust was single. 1865 Burgh *Slide Valve* 71 In some instances an increase is deemed necessary to allow a more free exhaust 1875 Martin *Winding Mach* 76 Back-pressure in the exhaust, owing to the large masses of steam which are suddenly let out through contracted passages 1887 J. b. The process of exhausting (a vessel) of air; the degree to which exhaustion is carried

1880 De La Rue in *Nature* XX 33 The greatest exhaust that we have produced, 0·000055 millim *Ibid.* As the exhaust is carried further it becomes a pale milky white

2. a. The production of an outward current of air by creating a partial vacuum. **b** Any apparatus for effecting this Cf. *exhaust-fan.*

1852 *Pract. Mech Jrnl.* V. 54 A free and copious exhaust is secured on both sides of the cylinder [fan]. 1884 *Bath Herald* 27 Dec 6/4 An exhaust [in a flour mill] carries away the lightest particles. 1887 *Pall Mall G.* 11 Oct 11/1 There are two great exhausts to draw off smoke and heat from the stage 1889 *Daily News* 2 Jan. 2/4 A steam exhaust, which produces an artificial air current.

3. *attrib* and *Comb*, chiefly in sense 1 a, as *exhaust-passage, -pipe, -valve*, also **exhaust-fan** (= earlier *exhausting fan*), a fan for producing a current by creating a vacuum; **exhaust injector**, an injector for feeding a steam-boiler with water, worked by exhaust steam; **exhaust-port**, the opening in the slide-valve of a steam-engine for the escape of exhaust-steam (= *exhaust-passage*), **exhaust-steam**, the waste steam discharged from the cylinder of a steam-engine.

Extra (e·ksträ), *a., adv*, and *sb* [prob. originally short for EXTRAORDINARY, which in 17th c. was commonly used as adj, adv, and sb. in the senses now belonging to *extra*. In Fr. *extra* is similarly used, and is explained by Littré as 'a popular abbreviation of *extraordinaire*'; it is uncertain whether the Eng. or the Fr. use is the earlier Presumably from Fr. the word has been adopted into Ger (*extra*), Sp and It. (*estra*). A Ger quot for *extra dumm* (='extra stupid') in GRIMM is dated 1775]

1852 W GROVE in *Phil Trans* CXLII 87 There was some effect exhibited *extra* the voltaic circuit

Extra- (e kstră), *prefix.* The L adv and prep *extrā* (see prec.) does not, strictly speaking, occur in composition during the classical period, though post-classically it formed a few vbs like *extrāclūdĕre* to shut out, *extrāvagārī* to wander outside (whence *extravagant*). Classical L. had however the adj *extraordinārius* EXTRAORDINARY, f phrase *extrā ordinem* outside the regular order, and late L also *extrāmundānus* EXTRAMUNDANE, f phrase *extrā mundum*, *extrāmūrānus* (cf EXTRAMURAL) f. *extrā mūrum* (or *mūrōs*), *extrānātūrālis* 'extra-natural', f. *extrā nātūram* Many similar adjs were formed in med L on phrases in which *extrā* is a prep, and some of these are adopted in Eng., as *extra-provincial* As the suffix employed in such formations was nearly always identical with that used to form an adj from the sb governed by *extra*, the words have the appearance of being f. *extra-* + adj (the actual formation, on *extra* prep. + sb. + suffix, being obscured); thus *extraordinary* is felt as meaning 'outside of what is *ordinary*' In recent times an enormous number of adjs of this type have been formed. The most important compounds of *extra-*, and those requiring etymological explanation, are given in their alphabetical place; of the remainder only a selection can be given in the following lists, many nonce-words of obvious meaning being omitted

1. Adjs with general sense 'situated outside something' (*e.g.* in Anat a specified organ or member), 'lying outside the province or scope of' (a specified branch of science, department of speculation or practice)
